Yes, BCT call again on 9/15, ST12 will be at 1 pm; everything else will be covered in a separate call at 10 am

Let me kno if you have any suggested additions to ADEQs request

Thank you Carolyn, I'll look this over.

I was having connection problems in the middle of the call -- my cell kept cutting out on me so, I ended up calling in 4 times (you may have heard the beeps). I missed a few minutes here and there of the discussion. When my cell phone lost the signal the 5th time in about 15 minutes, I gave up (around 11:48).

BTW, is there a BCT call on Sept 15? Will ST-12 be included?

Here is a draft of the letter we discussed this morning. We can also attach ADEQ's figure if you want to request additional boring locations at this time.

Wayne,

I plotted some proposed well locations in addition to those proposed by AF on the meeting slides from last week. The pdf includes the maps showing the current NAPL and dissolved benzene concentrations for each zone followed by the proposed well locations. The WORD file was too large to e-mail so it only includes the well location maps so you can move the proposed ADEQ well locations around and/or add others if you want.
